Complex private paediatric care
Introduction to Evelina London

Evelina London Children’s Hospital provides outstanding clinical services for children from before birth, throughout childhood and into adult life. Our vision is to be a world leading centre of life-changing care for children, young people and their families.

With internationally renowned consultants, specialist staff, leading edge technology and modern facilities, we provide an unrivalled breadth and depth of experience across a wide range of clinical specialities for children. As part of Guy’s and St Thomas’ NHS Foundation Trust private patients benefit from the highest standards of care from one of the largest and safest NHS Trusts in the UK.

We welcome patients from both the UK and overseas, and are proud to offer facilities to suit all nationalities and faiths. Our young patients benefit from consultant-led care and have the reassurance of having their procedure or treatment in one of the leading hospitals in the country.

Situated in the heart of London, Evelina London is ideally located just minutes from famous London landmarks including Big Ben and the Houses of Parliament.

Our achievements

- 1st children’s hospital in the UK to be rated as ‘Outstanding’ by the Care Quality Commission
- 1st new children’s hospital building in London for more than 100 years
- One of only two specialist children’s hospitals in London
- Home to the Centre for the Developing Brain
- Carry out all kidney transplants in children in South East of England
- Carried out the world’s first MRI-guided children’s heart valve procedure
- Neonatal unit cares for around 900 babies per year and has some of the best survival rates in the UK
About Guy’s and St Thomas’ NHS Foundation Trust

Guy’s and St Thomas’ NHS Foundation Trust comprises two of London’s best known teaching hospitals with a long history of high quality care, clinical excellence and innovation.

As one of the most prestigious and respected teaching hospitals in the world with a proud history dating back over 900 years, the Trust has a long tradition of undertaking ground-breaking research and engaging with partners to drive forward innovations that benefit patients.

As part of Guy’s and St Thomas’, Evelina London benefits from its location on the St Thomas’ site, which enables us to offer the full spectrum of children’s medical and surgical care from conception, through to maternity, neonatal, children and adult services.

Guy’s and St Thomas’ is part of King’s Health Partners, one of only six academic health science centres in the UK. This partnership with a world-class university, King’s College London, enables us to provide the latest treatments for our patients alongside the best possible care.
Exceptional patient care

At Evelina London Children’s Hospital, our vision is to improve the lives of children and young people by putting our patients and their families at the heart of everything we do by:

• Providing consistently outstanding, life-enhancing healthcare
• Educating and training people to deliver effective child-centred care and treatment
• Undertaking research that adds to knowledge about how to improve child health and changes practice.

Evelina London was the first children’s hospital in England to have been rated as ‘Outstanding’ by the Care Quality Commission (CQC). The 2016 report praised the hospital staff as ‘motivated and compassionate’.

Inspectors highlighted many examples where the hospital and its staff had made ‘special efforts to meet the needs of children, young people and their families’. They also commented that families felt ‘listened to by health professionals’.

• Over 76,000 outpatients
• 28,000 inpatients
• 27,000 A&E patients
• £180m annual turnover
Clinical services

Evelina London offers a comprehensive range of clinical services ranging from routine to specialist services for babies and children that require complex multi-disciplinary care. Our location on the St Thomas’ Hospital site means we are in a unique position to provide the full range of specialist clinical services to support private patients from before birth to childhood through to adult life.

Facilities

Designed by children for children.

With themed floors, a conservatory, rooms with views, sunlight and open plan atrium, Evelina London was designed around the needs of children and their families.

Promoting a sense of wellbeing, the state-of-the-art facility offers patients every amenity that a new hospital requires with an environment in which children feel comfortable and relaxed.

Our facilities include:

- Over 200 consultants
- 167 inpatient beds
- 5 operating theatres + 1 cardiac theatre
- 12 dialysis stations
- 6 day beds
- 20 paediatric intensive care beds
- Catheter laboratory
- Imaging suite including MRI
- 52 neonatal intensive care cots
- 56 consulting rooms including specialist units for cleft, neurology, ophthalmology, allergy
- Clinical Research Facility.
Accommodation

Stay with your child

We understand that you may want to stay with or near your child when they are in hospital so most beds in Evelina London have a pull-down adult bed next to them.

Onsite accommodation

Our River-View apartments provide short and long-term temporary accommodation.

Located on the St Thomas’ hospital site, the self-contained apartments offer a ‘home from home’ environment and spectacular views of the River Thames and Westminster Palace.

The facility offers a range of accommodation including studio, 1, 2 or 3 bedded apartments which offer an open plan kitchen, lounge, free WiFi and TV. Complimentary bath linen and toiletries are provided with provision for hot/cold refreshments.

For accommodation enquiries and reservations call + 44 (0) 20 7188 0276 or email stthomas.accommodation@gstt.nhs.uk

Hotel accommodation

There is a range of hotels to suit every budget situated just a short walk from Evelina London. There are also several fully serviced suites and apartments which can be found in central London.
International patients

Evelina London welcomes patients from around the world and aims to ensure that the cultural needs of all patients are met with sensitivity and understanding. We offer language support and interpretation services and accommodate special dietary, cultural and religious requirements.

International referrers, embassies and government bodies

We work with many of the world’s leading private medical insurance companies, embassies and third party referrers. Our aim is to work in partnership to provide a seamless process for international patients from initial enquiry to treatment and recovery.

Our team works closely with embassy colleagues to offer bespoke healthcare packages and support for letters of guarantee and any other requirements to ensure the needs of our private patients and their families are met to a high standard.

Payment options

Whether you have private medical insurance, are sponsored, or wish to pay for your own treatment, as an Evelina London private patient you can benefit from excellent clinical care and choice of consultant for your child’s treatment or surgery.

If you are a sponsored patient or have private medical insurance, we will liaise with your sponsor or insurer regarding payment for your child’s treatment or surgery.

We have fixed price packages for some procedures and our private patients team can provide an estimate for the cost of treatment/surgery for procedures not included in package prices.

Central London location

Evelina London is situated in the heart of London and within walking distance of the most iconic landmarks in London including Big Ben and the Houses of Parliament.

Based on the River Thames, London’s vibrant South Bank is home to national centres for arts, film and performance and some of London’s finest achievements in architecture such as the National Theatre, Southbank Centre and London Eye.

Popular attractions such as the Tate Modern, Shakespeare’s Globe, the Sea Life Aquarium, Royal Festival Hall and London Dungeon are all easily accessible.

A wide range of restaurants and cafés cater to the needs of all visitors.

Transport

Evelina London’s central city location offers excellent links to the London Underground, mainline train stations and major London airports.

- ●● Waterloo (rail and tube – Jubilee, Northern and Bakerloo)
- ●●● Westminster (Jubilee, District and Circle tube)

Retrieval service

We can also offer our private patients a specialist intensive care retrieval service from UK and international locations.
