

# Pathology price list

## Assisted Conception Unit

Treatment plans and subsequent costs are tailored to each individual, and will be discussed with your specialist at initial consultation. Our dedicated patient pathway coordinators will be able to assist with appointment bookings and payments. Please refer to our FAQs section and other price lists for further treatment options and packages.

1. Blood tests may be taken during your consultation or at an alternative time that is more convenient to you. You do not need to directly book an appointment for blood tests.
2. We no longer charge a separate fee for phlebotomy, this is now included in the price of your blood test.
3. Some blood tests are included in the price of select treatment packages. This is indicated on the price list where applicable. Any additional fees for blood tests not included in packages will be outlined in your costed treatment card.
4. In the unlikely event that you are not able to provide a valid sample or one is not collected, you will be invited to attend again for another sample to be taken. This would be at no extra charge.
5. Payment for blood tests is requested prior to or immediately after your appointment and should be made via the online payment portal. Our private patient pathway coordinators will be happy to assist you.
6. The Human Fertility and Embryology Authority (HFEA), stipulates that in your first course of treatment, your virology screening tests must have been completed no longer than three months prior to your start date. Any time longer than this, you will be required to repeat these tests at a cost to you.
7. All prices are reviewed regularly. Quotes are valid for a period of 90 days post offer. Please note, in the event that your treatment plan needs to be amended, your quoted price may change and additional fees may be charged. All changes will be discussed with you.

## Refunds

Occasionally, treatment cycles may need to be cancelled or postponed. In this case, refunds will be available. A charge for services already performed will be applied. Our team will be able to assist you through the refund process.

## How to pay

The most convenient way to pay is via our secure online payment portal, which can be found at: [www.guysandstthomasprivatehealthcare.co.uk/services/assisted-conception](http://www.guysandstthomasprivatehealthcare.co.uk/services/assisted-conception)

To discuss alternative payment options, please speak to our private patients customer service team.
